

# Gently Used Building Material

## Your Guide for Safe Disposal and Recycling in Calumet County

### What should I do with gently used building material?

Building material that is still in good shape with little to no damage can be donated rather than thrown away and sent to a landfill.

Donation centers will accept materials anywhere from doors and furniture to decorations and hardware.

You can also try finding ways to repurpose building materials around your house like making a bench or table.

### Habitat for Humanity

Habitat for Humanity has locations in Fond du Lac, Sheboygan, Manitowoc, Appleton, Oshkosh and Menasha.

Habitat for Humanity is a non-profit organization that helps to build and remodel homes for people in need.

There are locations all over the world that help build affordable housing for people in need.

Restores are Habitat for Humanity's donation and store locations. The proceeds they make are used in the community.
